Children & Youth Partnership for Dare County Training Descriptions

Mini Mindful Me! The Benefits of Mindfulness in the Early Childhood Classroom

Learn how mindful movement and other mindfulness strategies can be incorporated into your daily classroom schedule and life! We will talk about creating calming environments, learn mindful movement games to play with children and share breathing exercises to calm the excited, full spirited child. Learn methods to decompress and calm the energized classroom and discover the benefits of mindfulness for children and you. This will be an active workshop! Dress comfortably and come ready to move and learn how to make your days working with children easier, happier and more peaceful!

ITS-SIDS

Learn how to provide a safe sleep environment for infants in a childcare setting. Training is required every three years and within two months of hire for staff and volunteers, and family childcare homes providers licensed to care for infants.

Playground Safety

Playground Safety Training addresses playground safety hazards, supervision, and general upkeep of the outdoor area. It is required for all licensed child care centers, but has very helpful and important information for family child care home providers as well.

Emergency Preparedness and Response in Child Care Training

Emergency preparedness and response (EPR) rules went into effect July 1, 2015. The rules are designed to assist licensed child care programs to be adequately prepared to respond to the needs of children and others in the event of disasters and emergencies. Participants will learn more about the rules and the required emergency preparedness and response plan.
