Payment must be received no later than Friday, December 8th to confirm registration.

Children & Youth Partnership for Dare County Training Descriptions

ITS-SIDS - Infant/Toddler Safe Sleep & SIDS Risk Reduction in Child Care training. Learn how to provide a safe sleep environment for infants in a childcare setting. Training is required every three years and within two months of hire for staff and volunteers, and family childcare homes providers licensed to care for infants.

Playground Safety

NC Child Care Playground Safety Training aims to provide you with all the necessary knowledge and tools to ensure that your outdoor learning environment will meet the North Carolina Division of Child Development and Early Education requirements and provide your children a safe and fun environment. It addresses playground safety hazards, supervision, and general upkeep of the outdoor area. It is required for all licensed child care centers but has very helpful and important information for family child care home providers as well.

Supporting Developmental Monitoring and Screening in Early Care and Education Settings

We know that monitoring and screening in early childhood early care and education settings are critical to identifying children at risk for developmental delays. What is less known is how programs use developmental monitoring and screening tools and the ways caregivers talk with families about their children's growth and development. This training will help participants understand the differences in developmental monitoring and screening and why they are so important to children and families. Participants will learn how they can track and celebrate children's milestones and strategies for collaborating with families on supporting children's healthy growth. You can play an essential role in our state's early intervention efforts!

Emergency Preparedness and Response in Child Care Training

Emergency preparedness and response (EPR) rules went into effect July 1, 2015. The rules and training are designed to assist licensed child care programs to be adequately prepared to respond to the needs of children and others in the event of disasters and emergencies. Participants will learn about the rules and the required emergency preparedness and response plan. **Additional EPR training may be scheduled in Dare County as needed, upon request. Please contact Jennifer Bradshaw Garrett to schedule, jbradshaw@darekids.org, 252-441-0614, line 8.**

Temperament: A Practical Approach to Meeting Individual Needs

Temperament refers to a combination of tendencies that make up an individual's natural way of relating to people, things, and events. This session reviews updated research findings on temperament, the five temperament tendencies, the impact of culture, and the concept of Goodness-of-fit. We will review strategies for responding to individual differences in temperament in children in group care.

Improving Classroom Quality with the ITERS-R

Would you like to gain a better understanding of the Infant Toddler Environment Rating Scale? This training will be a discussion to define what quality care looks like in an infant/toddler classroom. Participants will learn about the indicators of quality in infant and toddler settings, how the scale measures quality, and how to use the scale as a self-assessment tool. It is recommended that participants have a copy of the ITERS R.

Introduction to the ECERS-R

This workshop will review the items and indicators as described in the ECERS Revised Edition, describe furnishings, arrangement of space, and materials recommended for a high-quality learning environment, define frequently used terms in the ECERS R, and ultimately reflect on their own classroom and practices regarding the ECERS R to implement a high-quality environment. It is recommended that participants have a copy of the ECERS R.

Promoting Children's Success: Building Relationships and Creating Supportive Environments This workshop is from the Center on the Social Emotional Foundations for Early Learning (CSEFEL). We will explore strategies that can be used to (1) build positive relationships with children; (2) design environments, schedules, and routines; (3) structure transitions; (4) help children learn rules and routines; (5) plan activities that promote engagement.

Register now for CPR/First Aid and BSAC classes on demand!
